

CALLA LILY

OVERVIEW

Graceful cup-shaped flowers that come in a variety of colors. Grown from a bulb when planted in ground in mild enough conditions they can regrow year after year. Plants are popular for both containers as well as cottage gardens and a long walkways.

WATER

Plants prefer consistent moisture without drying out, especially during the blooming season. Avoid soggy soil or the bulb might rot.

LIGHT

Full Sun in mild climates, but benefit from afternoon shade in hot and dry climates.

SOIL

Prefer rich, loose, well drained soil.
