

SUNFLOWER

OVERVIEW

Beautiful annual flowers that are traditionally bright yellow, but come in many other colors as well. Summertime staples in the garden. Size can vary from a foot or two for dwarf varieties up to 10 feet tall for giant varieties.

WATER

Plants are heat tolerant. While it can survive drought, they typically require regular and moderate amounts of water for best flower quality and appearance.

LIGHT

Full sun.

SOIL

Tolerates most soil types, but prefer rich well drained soil.
