

# SUNPATIENS

## OVERVIEW

Lovely annual with deep green foliage and large brightly colored flowers. Attractive to pollinators and popular for gardens and borders. Sun tolerant variety can be planted in full sun or part shade. When planted in full sun it will require additional water.

## WATER

Plants prefer regular watering, apply irrigation lightly but frequently to keep soil consistently moist but never soggy. Plants will need additional water when planted in full sun.

## LIGHT

Full to Part Sun

## SOIL

Plants prefer rich, well drained soil that still retains some moisture but is never soggy.
